HOW TO PRINT

Use the QR code below to submit a print request. The form is also available on the library website:

pafa.org/school/library

HOW TO PAY

You must pre-pay for your printing.

On the form, choose either the option to pay online, or in-person with cash or card/mobile wallet at the library. Once payment is received, prints will be ready for pickup between 3 days to 2 weeks.

DISCOUNTS

- Alumni, staff, and faculty receive 10% off printing.
- Current students receive 30% off printing.
- Students receive another 10% off with their own paper (paper must be lab approved).

PAFA PRINT LAB

SIZE & PAPER TYPE INFORMATION

- Sheet printing up to 17x22" is done on our *Epson printers*.
- If you wish to print a size larger, we offer roll printing on our *Canon large-format printer* up to 42" wide and 100' long.
- For prints 17x22" and larger, one free 8.5×11" proof is provided upon request.

Inkjet Printing - Fine Art Papers:

PAFA's Print Lab produces high-quality fine art prints for artists, portfolios, collections, reproductions, and more. Please reach out to us with any questions in starting your project.

- **Matte Paper**

Matte Paper is a great choice for prints with no glare. It is exceptional for high-contrast pieces, and black and white prints.

*Epson Ultra Premium Presentation Paper Matte (sheet)
or Canon Heavyweight Matte Coated Paper (large-format)*

- **Luster Paper**

Luster Paper gives your work a slight reflection/shine, but not as high of a reflection as a typical glossy paper. This paper is more durable than matte, and has good color vibrancy.

*Epson Ultra Premium Photo Paper Luster (sheet)
or Canon Photo Paper Pro Luster (large-format)*

- **Canvas Paper**

Canvas Paper is a flexible paper with a texture that can make your prints look similar to a painting.

We also offer different printing materials including acetate, metallic luster, glossy, and more, depending on availability.

Keep in mind inkjet paper does not have the ability to print double-sided.
